TRAVIS	0	0.0	1	-
WILLIAMSON	0	0.0	0	0.0
STATEWIDE TOTALS	464	1.6	452	1.5

<sup>a</sup>Incidence rates (IR) are calculated per 100,000 population. Population data are projected population from Texas Demographic Center's Texas Populations Projections Program; 2019 population projections were updated July 18, 2019, and 2018 population projections were from the prior version.

Note: Per the Emerging and Acute Infectious Disease Unit Data Suppression Policy, case counts are not published when underlying populations are less than 2,000, when  $n < 10$  for populations 2,000 to 20,000, or when  $n < 5$  for populations 20,000 to 400,000. Rates are not provided when underlying populations are less than 2,000 or the Relative Standard Error exceeds 25% ( $n < 16$ ).
