

Birth Users

- **If you need a report of records filed at your facility,** try running the Record Status Report. You can run the report between two dates for all records that were registered. If you select "excel," then you can look at the number of rows to see the number of births filed.

The screenshot displays the web application interface for the Texas Department of State Health Services. The top navigation bar includes links for 'Skip to main content', 'GLOBAL', and 'BIRTH'. The user is logged in as 'RAVEN WRENCHER'. The 'REPORTS' menu is open, showing a list of reports including 'Birth Institution Registration and Timeliness Audit Report', 'Birth Records Released but Pending ADP Report', 'Certified by Certifier Report', 'Facility Productivity Report', 'Hospital ADP Report', 'Listings of Unmatched Births with High Probability of Death', 'Multiple Birth Exception Report', 'Multiple Birth Report', 'Record Status Report', 'Selected Records Report', 'Uncertified by Certifier Report', and 'Unresolved Record Report'. The 'Record Status Report' is highlighted with a red asterisk. The footer of the page indicates the current date as 01-Feb-2019 and the build number as 2.0.7.5.
